This free event is part of an ongoing initiative to come together and share best practices to improve project outcomes. Join us for a stimulating afternoon of panel and small group discussions.

Owners, Architects, and Contractors will share their GMP processes and solicit input from other attendees. Design-Build GMP’s, CM At-Risk GMP’s, and Competitive GMP solicitations and processes will all be discussed. We plan to unwrap and define contingencies, holds, general conditions, general requirements, allowances, staffing costs, and more. We hope this session will identify best practices, process improvements, and offer a better understanding of the GMP contract type and delivery.

Registration is limited to a maximum of 60 attendees, so please register today!
