Building permit is required.

- (1) Fee based upon estimated cost of construction new buildings or structures. Estimated cost of construction based by current building valuation data report of sq. ft. construction costs published by International Code Council (ICC.)
- (2) When proposal involves reconstruction, alteration or alteration to an existing structure, permit fee shall be based upon half of cost of current building valuation for new construction and 20% for interior buildouts. Only the square footage of area involved shall be considered for fee purposes.
- (3) Full cost of a UCC non-residential plan review shall be paid by permit applicant at time of building permit issuance.
- (4) After estimated cost of construction has been ascertained in the manner outlined above, building permit fee shall be assessed in accordance with the following formula:
