FOR IMMEDIATE RELEASE

MBA Board of Directors Welcomes Alex Dick of Dick Building Company

January 22, 2020

Pittsburgh, PA – The Board of Directors of the Master Builders' Association (MBA) announced the appointment of Alex Dick to its Board of Directors. Mr. Dick was unanimously approved by the MBA membership at the General Contractors Annual Meeting on Friday, January 17, 2020, at the Duquesne Club.

Mr. Dick is Chief Operating Officer of Dick Build Company, headquartered in Jefferson Hills. He has over 16 years of industry experience, working in project management, operations, and corporate development. As COO, Alex represents a fourth generation of professionalism and innovation.

Dick Building Company is the continuance of a long tradition of construction managers within the Dick family. Noble J. Dick, Alex Dick's great-grandfather, founded Dick Corporation in 1922. In 2008, Dick Corporation announced it had completed the initial phase of a restructuring plan, which included a sale of assets and transfer of control to a new global construction management company. This transaction allowed Douglas Dick to form a new company – Dick Building Company.

The firm provides construction management and general construction services to clients in a variety of markets. Dick Building Company conducts much of its business in Western Pennsylvania, but has a national reach, including work along the southern and northern borders, west coast, and mid-America.

Todd Dominick, President of the MBA, said, "I think Alex will be a breath of fresh air for our Board and our membership. He represents the next generation of leaders of our industry and I look forward to hearing his ideas and working with him."

Alex Dick commented, "I'm delighted to continue the family tradition of service to the MBA and the role it plays in the advancement of our industry."

About the MBA

Since 1886, MBA contractors have set the standard in Western Pennsylvania for construction excellence by investing in a skilled workforce, implementing award-winning safety programs, and offering the best in management expertise.
